

CURRICULUM VITAE

Andrew. A. Parks BEng (Hons)

Education:- Bachelor of Engineering (Hons) Civil and Structural Engineering and Marine Engineering.

Qualifications: - Commercial Diver Part III HSE

Age: - 37 years
D.O.B: - 17th June 1967

Nationality: - British

Marital Status: - Married 2 children

Experience: -

1989 - 1992 **Cementation Piling & Foundations Ltd.** (Graduate Training Scheme)

Experience in all disciplines of pile construction - bored, CFA, Driven, Diaphragm walling, large and small diameter bored piles, slurry walling, ground anchorages, contiguous and secant walls and mini piling using above techniques.

Six month secondment to Wembley Laboratories for site investigation experience - Involving specifying, managing and reporting with recommendations for appropriate foundation solutions.

15 Month design office experience, designing foundation solutions using all of the above foundation techniques using current codes and design packages.

1992 – 2004 **Abbey Pynford** (formerly Abbey Underpinning & Foundations)

Joined the company and estimated and managed contracts with a bias to developing the mini piling market for Abbey Pynford based upon my experience from Cementation.

In 1996 became a Managing Partner of the special contracts division and as a result of the success of this business, the company changed name to Abbey Pynford in 1997.

In 1999 Special Contracts Division successfully undertook the move of the famous Belle Tout Lighthouse.

Since then the Division continued to expand and to carry out numerous similar projects safely and successfully. Left the company in 2004 to become a Director of Geostructural Solutions Ltd.
