ENVIRONMENTAL POLICY STATEMENT

GSS PILING LTD and its subsidiary GEOSTRUCTURAL SOLUTIONS (the Company) is committed to the conservation and improvement of the environment and recognises its responsibility to manage and minimise the environmental impacts of our activities, products and services.

To manage this responsibility and to minimise its impact the Company's obligations will be:

- To identify the significant impacts of our activities
- To develop suitable objectives, targets and management programmes, applying appropriate operational procedures to minimise the significant environmental impacts during normal, abnormal and emergency conditions.
- To prevent pollution, minimise inputs of utilities and resources and the outputs of emissions to the atmosphere, effluent to waters/sewers and wastes to disposal facilities. The Company will endeavour to re-use, recover or recycle materials where practicable, or safe disposal where not.
- Take into account the principles of sustainable development in conducting its administrative, commercial and social activities, using the procurement of materials from local, sustainable sources.
- To ensure that environmental responsibilities are defined, communicated and understood at all levels within our organisation through the provision of appropriate training.
- To ensure that suppliers and contractors understand the Company Policy and assist them in developing appropriate systems and a responsible approach with regard to environmental issues
- To communicate, co-operate and respond to the views of interested parties, including stakeholders, customers and the general public, on environmental issues, where this is practicable and likely to result in an overall improved environmental performance.
- To monitor environmental performance and continue to strive for continual improvement.

All employees are encouraged to contribute actively towards achieving an environmentally friendly workplace. Our Environmental Policy will be reviewed periodically to monitor its effectiveness and to ensure that it remains relevant and appropriate to the organisation.

This statement is to be read in conjunction with the responsibilities, arrangements, procedures and guidance that together form the Company's Environmental Policy
